## Create Entertaining Videos for Guiding the Careers of Information Management Specialists (IMS)

Project Litie	Create Entertaining Videos for Guiding the Careers of Information Management Specialists (IMS)
<b>Project Summary</b>	Convert career and portfolio guidelines from any number of topics contained in an Information Management Specialist mentoring document, to entertaining educational videos.
Country	Sri Lanka

## **Project Description**

As an IMS, we have access to a wonderful career and portfolio mentoring document called Copacetic providing a wealth of advice ranging from how to shape our career paths, to defining Contracting Officer Responsibilities (COR) for IT contracts, or defining strategic plans. There are 29 different topics of discussion overall, with an 13 supplemental appendices and 6 white papers from subject matter experts in the field. The intent of this project is to create entertaining and educational videos on a handful of those topics for an audience of new hire and mid-career IMS in the field.

#### **Required Skills or Interests**

## **Additional Information**

The product of this project should be a very inviting, creative and entertaining knowledgebase of videos to enhance the career development of Information Management Specialist at the Department of State.
